Streamlined EDC Torch

## Streamlined EDC Torch ↩ ➡ L-shaped Work Light

The MT21C can double as either a compact EDC torch or an angled work light, which gives all the versatility you need to handle any lighting task.

L-shaped Work Light

**NITECORE®**

## Unmatched Performance

Utilizes a CREE XP-L HD V6 LED to emit scorching **1000 lumens**, easily cope with almost all scenarios.

## Various Attachment Options

- Magnetic base allows for quick attach to any metal surfaces
- A metal loop enables the MT21C to be hung or suspended to other objects
- Tail stand capability

### NOTICE:

The above data has been measured in accordance with the international flashlight testing standards ANSI/NEMA FL1 using 1×18650 Li-ion battery (3500mAh). The data may vary slightly during real-world use due to battery type, individual usage habits and environmental factors.

\* The runtime for Turbo mode is the testing result before starting temperature regulation.

**NITECORE®**

## Features

- Multifunctional 90° adjustable flashlight
- Utilizes a CREE XP-L HD V6 LED
- Max output up to 1000 lumens
- Integrated "Precision Digital Optics Technology" provides unparalleled reflector performance
- Boasts a peak beam intensity of 8500cd and a max throw of 184 meters
- Side switch controls 5 brightness levels and 3 special modes
- High efficiency constant circuit provides unwavering output with runtime up to 700 hours
- Integrated power indicator light displays remaining battery power
- Power indicator displays battery voltage (accurate to  $\pm 0.1V$ )
- Advanced Temperature Regulation module
- Polarity reverse protection
- Toughened ultra-clear mineral glass with anti-reflective coating
- Constructed from aero grade aluminum alloy with HAIII military grade hard-anodized finish
- Waterproof in accordance with IPX8 (two meters submersible)
- Impact resistant to 1 meter
- Magnetic base and tail stand capability
