3-POINT HARNESS SYSTEM

- Secures the bag at three different points around the human body
- Offers a more secure carrying position, making the bag more stable and will not swing around when on the go
- Evenly redistributes the weight all over the upper body instead of just around the shoulder, reducing fatigue and the possibility of injuries

MULTIPLE CARRY OPTIONS

Secure
Retention System

Flexible
Crossbody Carrying

HARD-USE MILITARY-SPEC 1050D NYLON FABRIC CONSTRUCTION

High Strength | Light-Weight | Outstanding Bearing Capacity

Hard-use military-spec 1050D high tensile strength nylon ensures excellent resistance to rips, wear and tear

Coated surface ensures excellent resistance to water and fouling

High strength and lightweight construction ideal for all-weather use

EXTERIOR MOLLE SYSTEM FOR ENHANCED STORAGE CAPACITY

- The lightest weight and highest strength
- Waterproof, resistant to wear and tear
- High precision laser cutting technology creates a clean and smooth edge
- Allows for modular attachment and enhances the storage capacity
